Faculty Dean

SLSU-Tomas Oppus

Dr. Betarmos:

I am Ralph A. Miole, a fourth-year Information Technology student majoring in Programming. I would like to kindly request permission to enroll in the Geographical Information System course along with its prerequisite, Application Development and Emerging Technologies.

I am making this request because I hope to complete all my remaining fourth-year subjects this first semester of the academic year 2025–2026. If approved, this will allow me to take my Practicum in the second semester.

I fully understand that if I fail the prerequisite course, my enrollment in Geographical Information System will be automatically invalidated.

Thank you for considering my request. I greatly appreciate your time and understanding.

Respectfully yours,

Ralph A. Miole

BSIT Student
